The Invisible Wig so clossly resembles the real head of hair that sceptics and comnoiseurs have pronounced it the most perfect and extraordinary invention of the day. The great advantage of this novel and unique Wig is its being made without sewing or weaving, which causes its appearance so closely to reaemble the natural hair, both in lightness and natural appearance, as to defy detection, its texture being so beautiful, so porous and so free, that in all cases of perspiration evaporation is unimpeded, and the great evils of other Wigs entirely availed.
